DENTSPLY/International DENTSPLY/Caulk Safety Data Sheet

1. Identification		
Product Name	SDS Code Number	
Orthodontic Resin Liquid	551898	
Trade Name & Synonyms	Date of Last Revision	
Orthodontic Resin Liquid	04/15/11	
Manufacturer:	Address:	
DENTSPLY Caulk	38 West Clarke Avenue	
	Milford DE 19963-1805	
	http://www.caulk.com http://www.dentsply.com	
Grades or Minor Variant Identities	Information Telephone Number	
Pink or Clear	(302) 422-4511 (8:00 AM – 4:30 PM Eastern Time)	
Product Use (for Canada)	Emergency Telephone Number	
Denture Acrylic Resin	(302) 422-4511 (8:00 AM – 4:30 PM Eastern Time)	

2. Hazard(s) Identification

Danger Highly Flammable Liquid and Vapour

551898

WARNING MAY CAUSE AN ALLERGIC SKIN REACTION

Keep away from heat/sparks/open flames/hot surfaces-No Smoking Keep container tightly closed. Use only non-sparking tools. Take precautionary measures against static discharge. In case of fire: Use Dry chemical, alcohol, alcohol foam, or carbon dioxide for extinction. Store in a well ventilated place. Keep cool. Avoid breathing vapors. Contaminated work clothing should not be allowed out of the workplace. Wash thoroughly after handling. Wear protective gloves. IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: get medical attention. Wash contaminated clothing before reuse. Dispose of contents in accordance with local regulations.

3. Composition/Information on Ingredients

Hazardous Components	C.A.S. Number	Exposure Limits	%
Methyl methacrylate	80-62-6	50 ppm	> than 90
Dimethyl – p – toluidine	99-97-8	2 mg/M^3	< than 2

4. First Aid Measures

Routes of Exposure	First Aid Instructions	Immediate Medical Attention	Delayed Effects
Eye	Flush eyes with plenty of water for at least 15 minutes, occasionally lifting	Get medical aid immediately.	None known
	the upper and lower eyelids. If symptoms persist consult physician		
Skin	Flush skin with plenty of soap and water for at least 15 minutes. Remove	Get medical aid.	Allergic reaction possible
	contaminated clothing and shoes. Wash clothing before reuse.		
Inhalation	Move to fresh air immediately. If breathing is difficult give oxygen. If not	Get medical aid immediately.	Allergic reaction possible
	breathing, give artificial respiration. Do not use mouth to mouth		
	resuscitation. Instead apply artificial respiration using oxygen and a		
	suitable mechanical device such as a bag and a mask.		
	Consult physician if symptoms persist		
Ingestion	If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water.	Get medical aid.	Allergic reaction possible
-	Never give anything by mouth to an unconscious person. Do NOT induce		
	vomiting.		

Other	Not Applicable	Not Applicable	Not Applicable
Note to Physicians (Tr	eating Testing and Monitoring): Treat symptomatically		

5. Fire Fighting Measures

Flashpoint Method:	Flammable (Explosive) Limits in Air	Autoignition Temperature: N. A.	Other: Not		
13°C (55°F) TOC	LEL: 2.1% UEL: 12.5%	435°C (815°F)	Applicable		
Flame Propagation or Burning Rate (for Solids) Not Known	Properties Contributing to Fire Intensity: Not	Flammability Classification:			
	known	NFPA Flammability = 3			
Extinguishing Media: Water spray, alcohol resistant foam, carbon dioxide, dry chemical. Extinguishing Media to Avoid: Water with full jet.					
Protection and Procedures for Firefighters: As in any fire, firefighters should wear self-contained respiratory protective devices. Formation of toxic, irritating gases is					
possible from the decomposition of the polymer.					
Unusual Fire and Explosion Hazards: Dusts may be combustible when exposed to heat, flame, or oxidizing agents. Although the polymer dust is not easily ignited, the					
explosive limits of the polymer dust suspended in air are approximately those of coal dust therefore, fire fighters should avoid extinguishing methods which generate					
dust clouds. Formation of toxic, irritating gases is possible from the decomposition of the polymer. In routine use this product does not present an explosion hazard.					

6. Accidental Release Measures

Containment Techniques: Absorb spill with inert material (such as vermiculite, activated carbon absorbent, sand or earth), then place in the container. Do not flush into sewer.

Spill/Leak Clean-up Procedures and Equipment: Wear protective clothing and scoop up bulk material and place in a labeled plastic or
metal container. Avoid gross skin contact to minimize the possibility of contact dermatitis to susceptible persons. Polymer particles are slippery when spilled on hard
floor so sweep immediately and wash area with water to avoid accidental falls. Keep exposure to airborne particles to a minimum when cleaning by using proper
ventilation as discussed in section 8.Evacuation Procedures: Not ApplicableSpecial Instructions: Not ApplicableReporting Requirements: Not Applicable

7. Handling and Storage

Handling Practices and Warnings: Avoid inhalation and contact with eyes. Product is intended for dental use only. Handling of this product should be by trained dental healthcare professionals only. Observe normal care for working with chemicals.

Storage Practices and Warnings: Store in a cool, dry, well ventilated area. Store only in the original package. Keep package tightly sealed to prevent water absorption and contamination. Keep out of direct sunlight. Store away from food and beverages.

8. Exposure Control / Personal Protection

Occupational Exposure Limits: Not Applicable				
Engineering Controls: Not Applicable				
Individual Protection	Personal Protective Equipment for	Personal Protective Equipment for Emergencies		
Measures	Normal Use			
Eye/Face	Wear appropriate protective eyeglasses or	For emergency or higher risk of exposure, wear chemical safety goggles as described by		
	safety glasses to prevent exposure during normal use.	OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.		
Skin	During normal use, disposable gloves are recommended to prevent skin exposure.	For emergency or higher risk of exposure, wear protective gloves to prevent skin exposure and wear a lab coat to prevent contamination of your clothing. Wash contaminated clothing before reuse.		
Inhalation	During normal use with local exhaust, use of a dust mask will provide additional protection.	For emergency or higher risk of exposure, (for example when obvious dust cloud is observed), follow the OSHA respirator regulations found in 29CFR 1910.134 or European Standard EN149. Always use a NIOSH or European Standard EN149 approved respirator when necessary.		
Body Protection	Protective work clothing	Not Applicable		

9. Physical and Chemical Characteristics

Appearance: Clear or Pink liquid.		Odor: Characteristic methacrylate ester odor
Normal Physical State: Liquid		Melting Point: Not Applicable
Specific Gravity: 1.0 g/cm ³ pH: Not Applicable		Vapor Pressure (mm Hg): Not Established
Evaporation Rate (Butyl Acetate =1): Not Applicable	Decomposition Temperature: 20	00°C (392°F)
Other: Not Applicable		

10. Stability and Reactivity Data

Incompatibility (Materials to Avoid): Visible light, high temperatures, strong acids, strong oxidizing agents.	
Hazardous Products Produced During Decomposition: Methacrylates, acrylates, carbon dioxide, carbon monoxide, peroxides and irritating gases.	
Hazardous Polymerization: May Occur May Not Occur Conditions to Avoid: High Temperatures, ignition sources.	
Stability? Stable Unstable	Conditions to Avoid: High Temperatures, ignition sources.

11.Toxicological Information

Toxicity Data, Epidemiology Studies, Carcinogenicity, Neurological Effects, Genetic Effects, Reproductive Effects, or Structure Activity Data: Product may be an irritant to the skin in susceptible persons. On the eye the product has an irritating effect. Certain susceptible persons may be sensitized or allergic to acrylates and methacrylates.

Emergency Overview: Liquid and vapor are flammable. Heating, sunlight or contact with incompatible materials may cause explosive polymerization. May form explosive peroxides. Liquid is not known to cause significant health problems, however can be harmful if swallowed or inhaled (affects central nervous system). Causes irritation to skin eyes and respiratory tract. May cause allergic skin reaction! May be harmful if absorbed through skin. Warning target Organs: Kidneys, central nervous system, liver, and skin.

Routes of		Single,	Severity (Mild,	Acute and Chronic Health Effect(s)	
Exposure	Signs and Symptoms	Repeated, or Lifetime Exposure	Moderate, Severe)		Target Organ(s)
Eye	Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. If symptoms persist consult physician	Get medical aid immediately.	None known	Irritation and possible corneal damage	Yes
Skin	Flush skin with plenty of soap and water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse.	Get medical aid.	Allergic reaction possible	Irritation or possible allergic response. Severe allergic response may result in breathing difficulties.	Yes
Inhalation	Move to fresh air immediately. If breathing is difficult give oxygen. If not breathing, give artificial respiration. Do not use mouth to mouth resuscitation. Instead apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Consult physician if symptoms persist	Get medical aid immediately.	Allergic reaction possible	Chronic inhalation may cause effects similar to those of acute inhalation. Causes respiratory tract irritation. May cause motor in coordination and speech abnormalities.	Yes
Ingestion	If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting.	Get medical aid.	Allergic reaction possible	Not Applicable	No
Other: Central nervous system	Not Applicable	Not Applicable	Not Applicable	Not Applicable	Not Applicable

12.Ecological Information

Danger Hazardous to aquatic life

Toxicity Data, Environmental Fate, Physical/Chemical Data, or other Data Supporting Environmental Hazard Statements: Water Hazard class1 (Self-assessment): CAS# 80-62-6 Methyl Methacrylate: is listed as a Hazardous Substance under the CWA. None of the chemicals in this product are listed as Priority Pollutants under the CWA. None of the chemicals in this product are listed as Toxic Pollutants under the CWA.

13.Disposal Considerations

Regulations: Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Dispose of material as solid waste in a closed container. Dispose of in accordance with Federal, State and Local regulations. Properties (Physical/Chemical) Affecting Disposal: Dispose of material as solid waste in a closed container. RCRA P-Series: None Listed, RCRA U-Series CAS#80-62-6: Waste Number U162 (Ignitable Waste)

14.Transport Information

Flammable Liquid

Regulated for Shipping: Yes D	OT Shipping Nar	ne: Methyl Methacrylate Monomer, Stabilized Solution	Packing Group: II
Do Changes in Quantities, packagin	ig, or shipment	DOT Hazard Class: 3	UN Number: UN1247
method change product classificatio	on? Yes		
DOT Labels Required (49CFR172.1	101): Yes	Other: Not Applicable	

15.Regulatory Information

Labeling of Chemicals and the SDS contains all of the information required by the Canadian Controlled Products Regulations. U.S. Federal Regulations: CERCLA 103 Reportable Quantity: CAS# 80-62-6: RQ is 1000 lb. final RQ; 454 kg final RQ. Report spills required under federal, state and local regulations Section 313 Toxic Chemicals: This product contains the following chemicals subject to Annual Release Reporting Requirements: CAS# 80-62-6 Methyl Methacrylate which is subject to the reporting requirements of Section 313 of SARA Title III and 40 CFR Part 373. SARA Codes: CAS# 80-62-6 Methyl Methacrylate: acute, chronic, flammable, reactive. Section 302 Extremely Hazardous Substances (TPQ): None Clean Air Act: CAS# 80-62-6 Methyl Methacrylate: is listed as a hazardous air pollutant (HAP). This material does not contain any Class 1 ozone depletors. This material does not contain any Class 2 depletors. Clean Water Act: CAS# 80-62-6 Methyl Methacrylate: is listed as a Hazardous Substance under the CWA. None of the chemicals in this product are listed as Toxic Pollutants under the CWA. None of the chemicals in this product are listed as Toxic Pollutants under the CWA. OSHA: OSHA does not consider CAS# 80-62-6 Methyl Methacrylate highly hazardous. RCRA U-Series Hazardous Waste Code for CAS# 80-62-6 Methyl Methacrylate: U162 EPA Toxic Substances Control Act (TSCA) Status: All of the components of this product are listed on the TSCA inventory. State CAS# 80-62-6 Methyl Methacrylate can be found on the following state right to know lists: California, New Jersey, Pennsylvania, Minnesota and <th>15. Regulatory information</th>	15.
